## Introduction

Combined Electrical Contracting Services is an electrical contractor with strengths in design and construction projects. We provide comprehensive electrical services to the construction industry whilst also providing general electrical maintenance services.

Over the past twenty six years our company has successfully completed projects for most of the leading construction firms in the Top End. Our client list includes, Lendlease, Sitzler Bros (Darwin), Laing O'Rourke, John Holland Group, Halikos, Sunbuild, Norbuilt, Lahey Constructions, Pattermore Constructions, Probuild and more

Projects we have completed range from multi-million dollar Defence projects at, Robertson Barracks, Larrakeyah Barracks, HMAS Coonawarra and RAAF Bases Darwin and Tindal, to High Rise buildings in Darwin City (including the 28 story Pandanas Mantra & SOHO Apartments). We also have extensive experience in remote indigenous community housing projects in North West Australia and Arnhem Land.

We typically are responsible for most of the sub-trades to electrical on all of the projects that we are involved with; i.e. communications, fire detection, mechanical services, building management services, access control, MATV. If we cannot provide the necessary skill in-house, we have a network of tried and true specialist sub-contractors we can utilise to provide the skills required.

Combined Electrical has very significant experience at Defence installations in the Top End of the Northern Territory, as can be seen from the selected projects listed in this document, with our first project at Robertson Barracks being in 1992 and our latest being a current project in 2018 at RAAF Base Darwin for Sitzler Pty Ltd.

We believe that our commitment to customer service and employee relations, over a long period of time, has helped our company build a strong reputation within the construction industry, as proven performers, and a benchmark amongst Electrical contracting firms.

Our Company also provides electrical maintenance services to a variety of clients including – Broadspectrum (**for Defence**), Jones Lang LaSalle (**for Qantas**), Downer EDI, Jape Homemaker Village, NT News, Gecko MMS, Catholic Education and a number of Real Estate agencies and Property Managers.

I trust this will give you sufficient insight into our capacity to carry out works of both technical and financial significance.

Jeff Rees  
DIRECTOR
